On Sunday from 9 AM to 11 PM

Open for faculty members, students and working professionals

Limited seats available for sponsors

ABOUT THE COURSE

The Bhagavad Gita is the essence of most of the scriptures developed over thousands of years that contain time-tasted pearls of wisdom and techniques for leading a purposeful and peaceful life. In modern times, western people have started appreciating and using the teachings of Bhagavad Gita. Most of our youth are deprived of getting exposed to the teachings of Bhagavad Gita although it is being appreciated across the globe irrespective of religion, region, caste, culture, and gender. It is believed that the youth can gain immense benefit and lead a fruitful and progressive life if they can follow the guidelines provided in the Bhagavad Gita earnestly. This course be useful to everyone and particularly to youths. Nowadays, almost everyone is facing stress related problems in life. However, many of them are not familiar with the basic fundamentals of how to deal with the situations. In regular curricula of engineering, strong foundation of life management skills is not provided because of the constraining of teaching a large number of students with varied interest. Such type of short term courses will fill up that gap. Now, this course will provide an opportunity for bright students to get strong foundation of Indian Knowledge System and its application in daily life.

The number of participants will be limited to 500 on first-sum-first basis.

Applications must be forwarded by the competent authority of the institute. Only a few extra seats are available for sponsors. All the participants shall get a participation certificate in the soft copy form, provided their attendance does not fall below 50%.

About Prof. Debi Prasad Mishra

Dr. Debi Prasad Mishra, a professor in the Department of Aerospace Engineering and Design Programme, Indian Institute of Technology Kanpur (IITK) Kanpur, India, and adjunct Professor in IKS, IIT, Guwahati is currently working as the director of National Institute of Technical Teachers Training and Research, Kolkata. He had held Indian Oil Golden Jubilee Professional Chair in IIT Kanpur. He has been conferred with several awards and recognitions. He has edited 5 text books and 6 edited books and more than 260 research papers International/National Journals and conferences in the field of combustion and propulsion.
