

National conference of Gau-Vigyan in modern life and medical science

NCGV-2023

May 20-21, 2023

Indian Institute of Technology Guwahati, India

In association with

Bharatiya Govansh Rakshan Samvardhan Parishad (BGRSP)

Announcement

Cows are a vital part of many agricultural systems and the economy. Understanding cow science can help improve the efficiency and sustainability of farming practices and environment. Cow science drives research and innovation in the industry, leading to advancements in breeding, genetics, nutrition, ayurveda and disease prevention. The conference will be a two-day event with paper presentations, **keynote** speeches, **workshops**, **tutorials**, **exhibitions** and **panel discussions**. We invite authors to submit their original research work on topics related to cows. The topics of the conference include, but are not limited to:

- Description and importance of cows in Indian literature
- Sustainable development goals through cows
- Food processing and fertilizer industry
- Medicinal benefits and products
- Healthcare
- Economics
- Rural empowerment
- Crop-yield prediction

VENUE

The conference venue is Indian Institute of Technology Guwahati. The campus is on a sprawling 285 hectares plot of land on the north bank of the river Brahmaputra around 20 km from the heart of the city. The institute has all required facilities like health centre, students' hostels, faculty and staff quarters, guest house, library, computer centre, sports facilities, canteens etc. The Guwahati city is well connected to all major cities like Chennai, Kolkata, New Delhi, Mumbai, Bangalore and other metro cities through air, road, and rail. The institute is located at about 24 km and 19 km from airport and railway station, respectively. The weather is comfortable in March with approximate temperature in the range 10-30 °C. Nearby places of tourist attraction are Pobitora, Shillong, Cherrapunji and Kaziranga.
