RULES

• Quiz will have questions related to science and technology.
• Every hostel will be represented by one main team and one audience team.
• Main team can have minimum 2 and maximum 3 members.
• Audience team has to have a minimum of 4 members for the respective hostel to be eligible for audience rounds.
• Audience team can only participate in the audience rounds.
• The basic structure of the quiz is given below, more detailed rules will be given at the time of the quiz.

The Quiz will be broadly divided into two rounds:

The Prelims

• The pre-elimination round will consist of a main round of 25- 30 questions pertaining to the main team.
• It will also have an audience round at the end. Each hostel should have a representation from at-least 5 people, who should be present at the time when the audience round starts.
• The total prelims score of a hostel will be calculated by adding the scores of these two rounds. There will be star marked questions in the prelims which'll be used as tie-breakers. If the tie still persists, we'll use sudden death starting from the first question of the prelims.

The Finals

• Based on their performance in the prelims, the top-8 hostels will compete in the Finals.
• The Finals will have many rounds including two audience rounds

(other than the main team rounds) one around the start and one at the end before the concluding final round for the main team.

• Same rules hold for the audience rounds in the finals as the prelims.

• Based upon the final scores of the hostels the top-8 teams will be decided.

• In case of a tie at the end of the finals between two teams, their prelims score will be used for tie-breaking.

The Quiz Masters' decisions will be final and binding in case of any discrepancy or dispute.
