## Agendas

Post contesting for: **Senator**

Name: **Siddharth Khadiya**

Nick Name: **Khadiya**

Tagline (Punch line): .....

### **Agendas:**

- **The HMC budgets are being decided in a closed room. This should be done in the presence of some Gymkhana members.**  
-This is to ensure greater co-ordination between the students' senate and the HMC of the hostel.
- **Database Management in hospitals.**  
-Past medical records are very important for the doctors to treat a patient. In such a case maintaining a proper database will help a lot in providing better healthcare and also ease the whole manual process of finding the medical cards and thus save time.
- **Extension of Library timings during exams.**  
-To address the issue of overcrowding of the Institute Library during the exams I propose that the timings of the Library be suitably increased.
- **Speakers for announcements.**  
-The speakers in most hostels that are meant for announcements are either dysfunctional or are completely absent. I propose that they shall be reinstalled or repaired.

## **Experiences (Credentials if any):**

- **Technical Secretary** of Kameng Boys Hostel 2014-15.
- As a technical secretary I led my hostel to victory in **Kriti**, the annual inter-hostel techno-management competition.
