

## **New Student's Senate structure**

This is to bring to your notification that the structure of students' Senate has been changed to be effective from the next gymkhana elections. Here is the brief of how it works. The club secretaries will no more be part of the senate and only members of senate will have elections. The rest of the members of senate will undergo a nomination and selection process. This is how the senate will be constituted.

- For every 200 students in the campus, there shall be one Senator with equal ratio of UG, PG and Girl representatives.
- All the Senators shall be elected through general elections by the students.
- No Senator is allowed to hold any other position in Gymkhana as Club Secretaries, Conveners, Heads, etc.

Although the composition of the senate is changed the duties and procedures of the senate will remain same.

Accordingly, the procedure for selection of Club Secretaries is also changed as follows:

- After the general elections the General Secretary of the respective Board shall propose the number and types of Secretaries as per requirement for smooth execution of the Board throughout the year. The proposal is to be approved by newly formed Students' Senate and the Senate then shall call upon nominations for the posts.
- All the contestants shall then present their plan of action, which includes calendar and budget for the year, to the Senate.
- The Club Secretaries will be elected based on the voting of the Students' Senate and the respective Board Chairman.

For more details refer to minutes of 12th SAC meeting.
